PRO-6000 SERIES TRANSFER SYSTEM PACKAGES

Proven reliability | Customized components | Automation | Flexibility

Similar to our Pro-5000 series, the Pro-6000 series of transfer systems can be fully customized to meet your needs. The Pro-6000 series embraces the hi-flow bulk transfer for fuels, oils/lubes, Diesel Exhaust Fluid (DEF), and specialty chemicals.

These systems are designed with a value-driven approach, with an emphasis on quality. The Pro-6000 series of hi-flow transfer skid systems offers solutions to give you fast turnaround times. From an engineering and functional aspect, these systems are unique and centered on individual customer needs.

We've built custom solutions with the capability of handling a variety of fluids. Whatever your flow may be, let us know, and let us see how we can help you design a tailor-made solution to meet whatever challenges are standing in your way.

Products we've worked with:

- Turbine oil
- Vast range of lube oils
- Processed water
- Specialty chemicals
- Diesel Exhaust Fluid (DEF)
